

# CLIPRO

## Customer account management

# SIMPLIFIED MANAGEMENT

# MULTI-SITE SOLUTION

# EASY INVOICING

### Simplified management

With its intuitive interface, comprehensive data exports and direct access to customers' accounts, CLIPRO will simplify the management of your invoicing!

### Multi-site solution

CLIPRO, a single server with reconciled invoicing for your network of stations, optimising the operation of your sites.

### Easy invoicing

Customisable invoices, automatic or manual invoicing, choice of billing day, and more. With CLIPRO, set up your customers' invoices quickly and easily.

# CLIPRO

## + PRODUCT

- High added value for the operator and its customers
- Optimised invoicing: saving time for teams and customers
- Control of customer accounts
- Secure solution

Because fuel stations are key stations for any company, LAFON has created CLIPRO, a solution for account customers.

Thanks to its advanced functionalities, CLIPRO enables operators to offer their customers simplified management of their fuel station.

For the manager, CLIPRO will represent a real time-saver in the operation of the station, by offering easy administration of customers' accounts.

## OPERATOR BENEFITS

### SIMPLIFIED OPERATION

- Can be managed from any PC in the shop
- Data exports (XML, CSV) for integration in back-office software
- Possible reuse of existing local cards (subject to testing)

### EASY INVOICING

- Automatic or manual invoicing, without closing the station
- Customisable invoice (header and logo)
- Save invoices in PDF format
- Immediate stop payment of a client
- Management and limitation of outstanding amounts

### SECURE MULTI-SITE SOLUTION

- A single server and centralised invoicing for a network of stations
- Inter-site connection via a secure network link
- Maximum security with online authorisations (outstandings, list of oppositions, etc.)
- Offline reduced-function mode available (in case of network communication problem with the server)

## CUSTOMER BENEFITS

### EASY DISTRIBUTION

- 2 possible identification media: contactless badge or magnetic card
- Payment on 24-hour and self-service machines
- Very short authorisation times
- Option of prepayment material

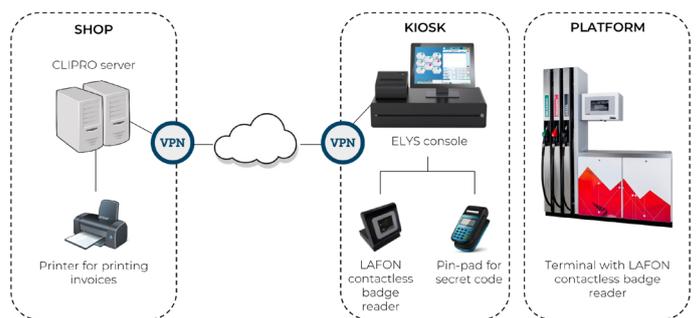

### DETAILED MANAGEMENT OF TRANSACTIONS

- List of transactions by driver and by vehicle
- Tracking mileage and average consumption
- Restriction by product
- Stop payment management

### OPTIMISED INVOICING

- Detailed invoice (per badge, per product)
- Invoicing by service possible
- Management of discounts and rebates
- Frequency can be customised
- Direct access possible to their account
