Voluntary Declaration of Factory Production Control for the attestation of conformity systems 3 & 4

Applicable to the products mentioned below, on a voluntary bases and in analogy to the Directive 89/106/EEC of the Council of European Communities of 21 December 1988 on the approximation of laws, regulations and administrative provisions of the Member States relating to the construction products (Construction Products Directive - CPD), amended by the Directive 93/68/EEC of the Council of European Communities of 22 July 1993, it has been stated that the (construction) products

Overfill prevention device for storage installations of liquid petroleum fuels
Types:

CLEANFILL DN 50
Type and subtype: A2
For filling by gravity or pump fill
Vapour tight not applicable. Only for tanks filled with liquids with a flashpoint above 55 °C, no filling line inside of tank

SOLO DN 80
Type and subtype: A2
For filling by gravity or pump fill
Vapour tight according non vapour tight test procedure EN 13616*

CLEANFILL DN 100 4 GVF
Type and subtype: A1
Applicable for filling by gravity
Vapour tight at 3.5 kPa according vapour tight test procedure EN 13616

produced by the company

Lafon S.A.
Avenue Victor Meunier
F-33530 BASSENS
France

is submitted by the manufacturer to the initial type-testing of the product and a factory production control and that Kiwa has performed the initial inspection of the factory and of the factory production control and performs the continuous surveillance of the factory production control.

This declaration attests that all provisions concerning the attestation of factory production control described in Annex Zc of the standard

EN 13616

were applied, on a voluntary basis, as if a higher AoC system were in effect instead of the actual AoC systems 3 & 4. This declaration was first issued on August 15 2007 (replaced February 1 2009) and remains valid as long as the conditions laid down in the harmonized technical specification in reference, or the manufacturing conditions in the factory, or the FPC itself are not modified significantly.

On the basis of this document the manufacturer is allowed to use the Kiwa FPC Label as shown on this page.
