Storage - Distribution - Management

## HARBOUR AND MARINA

## COMPLETE SOLUTIONS FOR FUEL DISTRIBUTION

# STORAGE - DISTRIBUTION - MANAGEMENT

## FUEL STORAGE

### DOUBLE WALL TANK STORAGE

STORAGE : LAFON Technologies manufactures single and double wall tanks to ensure a complete watertight of your fuel storage.

ELECTRONIC GAUGE : For a perfect stock control find out the electronic gauge solution :

- > Product level and temperature
- > Water level
- > Leak detection
- > Fuel management system with reconciliation and delivery report
- > Stock alert
- > TCP / IP / native network connection
- > Product density sensor

## FUEL DISPENSERS

### BOXTER RANGE

Based on our designer and manufacturer expertise, a product has never been so close to users expectations. Inheriting reliability and quality of previous LAFON series, this device is modular and available in more than 138 configurations.

Developed and assembled in France, BOXTER range is ready to any situation, from the local service station to the marina with or without outdoor payment terminal integrated.

- > ROBUST
- > EFFICIENT
- > MODULAR

- > Standard hose length : 5m
- > Flow rates : 3m<sup>3</sup> - 5m<sup>3</sup> - 8m<sup>3</sup>
- > MID approval

### ADAPTED FUEL DISPENSERS REGARDING YOUR NEEDS

- > Installation of submersible pump
- > Housing composition : Inox to avoid corrosion
- > Hose reel in option

**AIDYDS 540**  
Port refuelling

**BOXTER 20**  
Mono-multi products

**BOXTER 10**  
Mono-multi products

### AIDYDS 540 PORT REFUELLING

LAFON has taken into account the specific and difficult operating conditions encountered on port and has developed dispensing equipment that is dedicated to the high flow rates of 12 - 20 m<sup>3</sup> per hour used for AIDYDS 540.

AIDYDS 540 is different because of its incomparable ergonomics for the user and its very high robustness. Its industrial design and mass production means it has also obtained the rigorous LNE, ATEX and CE certifications.

- > Hose length in DN32 : 30m (40m in option)
- > Hose length in DN38 : 25m
- > CET product (MID approval in September 16)

## PAYMENT TERMINAL AND MANAGEMENT

### APL3 : OUTDOOR PAYMENT TERMINAL

Thanks to APL3 you can centralise the distribution management on one main payment terminal that will control all your fuel dispensers (Boxter 10, 20 and Avidys 540).

APL3 provides users with a simple, pleasant and fast way of filling up and guarantees non-stop operation for the operator whilst technical staff will enjoy its ease of installation and simple maintenance.

- > ADAPTABLE
- > PROVEN RELIABILITY
- > MAINTAINABLE

### ELYS : MANAGE THE FUEL EQUIPMENT OF YOUR MARINA

Controlling all your equipment (Dispensers, tanks and gauges...), offering all front office functionalities (Pos peripherals management, EMV payments, backoffice connection, stats and reports ...), ELYS will allow you to run your business at optimum.

- > REPORTING
- > PROVEN SYSTEM
- > MAINTAINABLE

## MOBILE STATION

### THE 3 IN 1 SOLUTION FOR YOUR FUEL DISTRIBUTION

Nomad, economical and compact, Mobiltank© is the 3 in 1 solution for your fuel storage, distribution and management. Our Mobiltank© range integrates all the petro-equipement you need for boats refuelling : storage tank with petroleum equipment, fuel dispenser and management system to keep control on consumption.

- > PLUG & PLAY
- > ECONOMICAL
- > SAFETY
- > STANDARD COMPLIANT

- > Easy to install : 1 day
- > Easy to maintain
- > Made in France

## LAFON ALSO PROVIDES :

### > PETRO-EQUIPMENT

Innovative, reliable and safety materials for your station equipment.

### > PRIVATE FLEETS

Easy, a range integrates the most powerful standards that meet your needs in fuel infrastructures, access, carwash...

### > STORAGE TANK

Single and double wall tank manufactured in our plant (FR) in accordance with european standards.

### > UNATTENDED TERMINAL

Innovative management and payment solutions for the best client experience.
